EDUCATION

1994, Université de Montréal, Montréal, Québec, Canada.

PH.D. IN GEOGRAPHY. THESIS: "TRANSPORTATION CORRIDORS IN EAST AND SOUTHEAST ASIAN URBAN REGIONS".

1992, University of British Columbia, Department of Geography and Asian Studies Centre, Vancouver, British Columbia, Canada.

DOCTORAL INTERNSHIP.

1991, Université de Montréal, Montréal, Québec, Canada.

M.SC. IN GEOGRAPHY. MEMOIR: "THE DEVELOPMENT OF A DYNAMIC SPATIAL INTERACTION / LAND USE MODEL: APPLICATION TO SHANGHAI".

1989, Université de Montréal, Montréal, Québec, Canada.

B.SC. IN GEOGRAPHY. MEMOIR: "TRANSPORT SUPPLY AND LAND USE CHANGES IN MONTREAL BETWEEN 1964 AND 1983".

ACADEMIC POSITIONS

1999- Hofstra University, Hempstead, New York, USA.

ASSOCIATE PROFESSOR (2006-)

ASSISTANT PROFESSOR (1999-2006)

DEPARTMENT OF GLOBAL STUDIES & GEOGRAPHY (2008-)

DEPARTMENT OF ECONOMICS & GEOGRAPHY (1999-2008)

1997-1998, Bishop's University, Lennoxville, Québec, Canada.

ASSISTANT PROFESSOR (SESSIONAL POSITION), DEPARTMENT OF GEOGRAPHY

1993-1998, Université du Québec à Trois-Rivières, Trois-Rivières, Québec, Canada.

LECTURER, DEPARTMENT OF GEOGRAPHY

1989-1998, Université de Montréal, Montréal, Québec, Canada.

LECTURER AND TEACHING ASSISTANT, DEPARTMENT OF GEOGRAPHY

RESEARCH INTERESTS

Economic, transport and urban geography. Area interests involve East and Southeast Asia (particularly China) and North America, notably concerning transportation, distribution and trade issues. Specific topics cover transport systems and logistics, global supply chains and production networks, gateways and transport corridors, urban regions, economic integration, international trade and regional development.

The Governance of Intermodal Transportation Assets

Investigating public and private roles and strategies in the setting and maintenance of global freight distribution systems. The role of global equity firms, terminal operators and shipping companies in global supply chains. The financing and integrity of global supply chains.

The Transport Geography of Logistics and Global Production Networks

Investigating conceptual and empirical aspects behind the emerging geography of logistics and freight distribution. Particular issues involve global production networks, international / regional freight distribution, locations within complex multinational supply chains, green/reverse logistics and sustainability.

Gateways, Corridors and Inland Freight Distribution

Investigating the relationships between major transport gateways and regional / urban freight distribution. Specific aspects involve inland terminals, rail transportation, the logistics industry, distribution centers and distribution clusters. Comparative analysis of freight distribution.

Globalization and Transport Terminals

Investigating the impacts of globalization on transport terminals, notably maritime and rail terminals and freight distribution centers. Involves the regionalization of hinterlands, economic cycles, and international trade.

Associated Faculty, Master of Arts in Applied Social Research and Policy Analysis, 2008-

Member, Faculty Personnel Board, 2008-

Chair, Faculty Search Committee, 2006, 2008.

Member, Senate Academic Computing Committee, 1999 to 2006.

Member, Technology Enhanced Classroom sub-committee, 2001 to 2006.

Member, Classroom Platform sub-committee, 2002.

Member, Organizing Committee for the 2001 Suburban Studies Conference (Spring 2000 to 2001).

Geography representative to "College for a Day" an institutional effort to assist with student recruitment (1999 to present).

Involvement in the First Year Program (Environmental Ethics) with the course GEOG 102 Population, Resources and the Environment and GEOG 113C Geography of East and Southeast Asia (2000 to 2006).

Member, Asian Studies Program (1999 to present).

Webmaster, departmental web site for economics & geography (1999 to 2005).

PROFESSIONAL AND CONSULTANCY SERVICES

Consultant

2008-, Government of Quebec, Ministry of Economic Development, Innovation and Export Trade. The planning of a logistic pole in Quebec. Responsible for the analysis of the global trade environment, the governance models of logistic clusters and the opportunity of using

empty containers on backhaul trade flows.

2008-, Kiewit Construction Company, Business cycles and commodity prices.

2006-, Mi-Jack Products Inc., Intermodal transportation issues.

Multimedia Projects

2003-2005, Gilbert M. Grosvenor Center for Geographic Education (GCGE), Texas State University, San Marcos, Texas, USA. Co-developer with Dr. Martin Eaton (University of Ulster) of the module “The Global Economy” for the online Center for Global Geography Education (CGGE), Association of American Geographers, Grosvenor Center for Geographic Education, International Geographical Union, International Network for Learning and Teaching, and National Council for Geographic Education. Funding: National Science Foundation's Course, Curriculum, and Laboratory Improvement Program under grant DUE-0231411.

1997-2000, Hofstra University, Dept. of Economics & Geography Hempstead, New York, USA. Direction of a major multimedia project involving 5 universities, (Hofstra, Concordia, Montreal, Sherbrooke and Waterloo) entitled: “Transport Geography on the Web / Géographie des Transports sur le Web”. Project under contract from Industry Canada, NoteMakers: Development of World Wide Web-Based Post-Secondary Education Courses. Part of the Government of Canada initiative for the information highway.

1997-98, Joint direction, with Dr. Derek Booth (Bishop's University), for the construction of the Web site: “Geography and History of the Eastern Townships / Géographie et histoire des cantons de l'est”. Industry Canada, Schoolnet digitized collections program.

1997, Concordia University, Dept. of Geography, Montréal, Québec, CANADA. Joint direction, with Dr. Brian Slack, for the construction of the Web site: “The St. Lawrence: Maritime Seaway and Economic Centre of Canada”. Project under contract from Industry Canada, Schoolnet digitized collections program. Part of the Government of Canada initiative for the information highway.

1995-1996, Université du Québec à Trois-Rivières and COGECO cable company, Trois-Rivières, Québec, CANADA. Conception and programming of 2 out of 12 modules of the multimedia course “PPL-1006: The Emergence of the World-System: An Introduction to Globalization”. This 3 credits course was the first full-standing multimedia course available on the Internet. Project part to the Government of Quebec initiative for the development of the Information Highway.

GRANTS, CONTRACTS, FELLOWSHIPS AND PRIZES

2008, Research Grant, Equipment Leasing & Finance Foundation, The Next Generation of Intermodal Transport Terminal Equipment: An Analysis of Financing Models, 10,500 \$US.

2001, PricewaterhouseCoopers Business Book Award, (Prix du livre d'affaires, jointly

awarded by l'Ordre des administrateurs agréés du Québec), Best French business-related book published in North America for "L'espace économique mondial", 10,000 \$C.
